Information Technology/Computer Science Teacher  
Job Posting

CATEGORY: Faculty 2015-16 School Year
DEPARTMENT: Middle and Upper School
POSITION LENGTH: Contract /Renewable on a 12 month basis
Posting Date: March 11, 2015 – April 1, 2015

Hathaway Brown School has an opening for a full-time Grades 7-12 Information Technology/Computer Science teacher for the 2015-16 academic year.

A successful Grades 7-12 IT/CS teacher will:

- Demonstrate a passion and expertise in the teaching of computer science and technology
- Be an exemplar in the use of technology in the classroom to engage learners
- Foster the well-being of students in the school by both challenging and supporting them
- Be a team player who works in concert with other teachers, administrators, librarians and IT support
- Have a degree in Information Technology, Computer Science or related field, Bachelor minimum, Masters preferred
- Use and administer both Apple and Windows laptops and desktops
- Be able to develop and implement an effective and engaging curriculum; a highly competent teacher
- Understand adolescent development and effective classroom practice for the high school classroom
- Build positive relationships with high school students; a powerful student mentor
- Have the ability to draw people in for collaboration and problem solving; a trusted and sought-after colleague
- Have a high-level of familiarity and competence across cultures and multiple perspectives
- Have excellent communication skills
- Demonstrate energy and initiative

Responsibilities include:

- Providing professional development to faculty and staff to foster technological independence
- Helping faculty create lesson plans that integrate academic technology in various curricular areas
- Modeling technologically integrated lessons for teachers
- Working with the Director of Academic Technology to plan an overall strategy for technology integration for the school
- Assisting students and faculty with minor technical issues, and escalate them as needed
- Membership in the Technology Review Committee and advocate for students’ and teachers’ technological needs
- Participating in ongoing professional development to research and identify best practices related to the integration of academic technology
- Teaching computer science classes from 7th-12th grade students, including Exploring Computer Science, AP Computer Science, Post-AP Computer Science, and a programming academy for middle school students
- Identifying and updating curriculum changes to be in line with national best practices
- Inspiring students to pursue computer science and engineering fields by bringing in guest speakers, demonstrations of technology, and other activities
- Adult advisor to technology-related student organizations
- Mentor a group of 10 or so students in our Advisory program

Interested candidates should send a resume and statement of teaching philosophy with cover letter to:
