PHYSICIAN AUTHORIZATION/PARENT REQUEST FOR BLOOD SUGAR TESTING IN THE CLASSROOM

This Procedure is for a student with Insulin-Dependent Diabetes:

Under the Physician and Parent's Authorization, tests kits for diabetes may be carried by the student and tests administered on campus and in classroom under the following conditions:

If the test is administered in the classroom:

1. The student’s teacher is given notice when the test is being administered.
2. The test is administered in an area away from other students.
3. If the student is not acting responsibly, the testing will be confined to the Nurse's office.
4. All sharp objects and contaminated materials used for testing shall be stored in a hard closed container carried by the individual student. Materials are to be disposed of in a biohazard container or taken home for disposal.
5. Snacks or glucose tablets will be allowed in the classroom at regular intervals based on individual need and to alleviate a low-blood sugar episode.
6. Universal precautions utilized at all times.
