Responsible Use Policy

Faculty and Staff

2014-2015

The Hathaway Brown School Network is intended to enhance the educational resources of the School, first as a support to the academic and administrative work of the School, second as a communication tool between various parts of the HB community, and third, as a tool for life-long learning. The goal is to facilitate access to resources, improve communication, and encourage innovation. Your school-issued or personal device is a professional and academic learning tool which provides ubiquitous access (wired and wireless) to an array of programs and tools. Use of technology at school is a privilege and its benefits are highly dependent on an atmosphere of mutual respect and trust as you explore the digital world.

It is the expectation of the School that users will behave in a lawful, ethical and respectful manner. There is no expectation of privacy when using the School’s network. If a violation of this policy is suspected, private files or correspondence may be investigated, and social media sites may be monitored. It is important to recognize that behavior both on and off campus reflects on the reputation of the School. Failure to act responsibly may result in disciplinary consequences up to and including dismissal. Hathaway Brown School will cooperate with any law enforcement agency in the event of suspected illegal or inappropriate activities.

Hathaway Brown School recognizes the value and potential of personal publishing in media and on the Internet; however, discretion should be exercised in any posting or publishing in media or on the Internet regardless of the computer or network that is being used. It is an expectation that a member of the Hathaway Brown School community will not use the School name, its nickname, or symbol in any media content that is in conflict with the School’s policies and standards for responsible behavior. This includes but is not limited to drug and alcohol references, prejudiced or discriminatory speech, reference to illegal behavior, obscene pictures or language, assuming another person’s identity, or language that libels, bullies or harasses another individual or group. Postings on the Internet are public and permanent, so at no time are users to provide identifying or incriminating information that could put the School community at risk. In general, users should not be posting any material on social media sites that they would not want others to see.
