## Six Hathaway Brown seniors are honored in Siemens competition

Six Hathaway Brown seniors are winners in the 2012 Siemens Competition in Math, Science, and Technology. In addition, HB boasts the distinction of being home to the only Siemens finalist from the state and five of the nine semifinalists.

**Gurbani Kaur** of Copley was named a finalist for her targeted drug-delivery research in the CWRU School of Biomedical Engineering. She has advanced to the top 36 individual projects in the U.S. She will present her work at the University of Notre Dame this month. She also has the chance to go on to Washington, D.C., where the top six individual projects will compete.

HB's 2012 Siemens Semifinalists are:

● **Jenn Blumer** of Moreland Hills, for her pharmaceu-

tical research conducted at the CWRU School of Medicine.

● **Aly Bryan** of Chagrin Falls, for her research on malaria in Third World countries, conducted at the CWRU School of Medicine.

● **Lena Ranschoff** of Shaker Heights, for her neuroscience research conducted at the Cleveland Clinic.

● **Sham Shelkay** of Copley, for her cardiology research conducted at the CWRU School of Medicine.

● **Ingrid Zippe** of Shaker Heights, for her neuroscience research conducted at the CWRU School of Medicine.

Siemens finalists and semifinalists receive awards packages and are eligible for partial to full college scholarships.
